Communication. Courage. Compassion.

OUR VISION is for each individual to discover their values, link them to their actions, and awaken the heroic traits within so that everyone is free to learn and express themselves in a supportive school environment and become a catalyst for positive change in their world.

OUR MISSION is to create a new generation of heroes by providing revolutionary programs that awaken a sense of social justice, compassion, connection and possibility in an environment where diversity is celebrated.

PROJECT

A hand holding wooden blocks spelling out the word "HERO".

HERO

Project Hero

free to be...

PROJECT HERO facilitates positive change in school communities throughout Australia and the United States. Our experiential **EVENTS** teach youth how to connect with each other, express themselves in positive ways and **BE THE HERO** our world so desperately needs.

THROUGH video, music, small village communities, and visualizations, participants discover their values, and link those values to their actions. Our passionate guides lead the group to a greater awareness of how to communicate ethically, both verbally and through social media, and how to respect and value diversity.

PARTICIPANTS come to understand that we all share similar challenges that define us as human. A sense of community is sparked and there begins the “positive change” movement that continues to enrich the school community thereby increasing student performance and overall well-being.

What Educators & Community Organizations are Saying:

“Project Hero is different to anything I have ever seen before. We have never run a program with such positive feedback from the students. I don't need to tell you too much more - the comments from the students say it all!”

— Rebecca Deep, Partnership Broker, 2realise

“Having my students participate in a Project Hero event was a real catalyst for change in their lives. The students shared their stories and their hopes and their dreams, in doing so, they connected to each other in ways I had not seen. I'm so pleased that my students were able to participate in such an important event. Thank you Project Hero team!”

— Jennifer Barber, Teacher

“As your Partnership Broker we see huge value in schools adopting the Project Hero program for students. Through it students learn to celebrate individuality and adopt a cohesive community early in the school year.”

— Barbara Burke, Partnership Broker
Northern Beaches Business Education Network, Inc.

What Project Hero Participants Say:

- ◆ “You feel great and alive and you know you aren't alone.”
- ◆ “It taught me that we are all unique and that I am worth something.”
- ◆ “You made me see life differently.”
- ◆ “Project Hero will save lives!”
- ◆ “In just one hour it changed my life; it taught me so many things that I didn't even know.”
- ◆ “You made us feel like a family.”
- ◆ “It really made me realize the influence and the power that we can have on others.”
- ◆ “It is a fabulous program that makes you feel important and happy.”
- ◆ “It showed me I'm never alone.”

“If you don't believe in yourself Project Hero will make you.”
